EARNING MASTER CONTRACTOR QUALITY POINTS

Master Contractor, Presidents Club, Platinum Council and Elevate Champions are ranked using MC Quality Points. **Once the program requirements are met** we rank the qualifying contractors by amount of MC Quality Points from high to low.

Throughout the year, contractors earn quality points for the installation of Elevate RubberGard™ EPDM, UltraPly™ TPO, PVC, Asphalt, and Metal Roof Systems. For our 2025 programs, all systems must be in PIN with a **Request for Inspection (RFI) Date on or before November 8, 2024, to count towards your 2025 quality points.** This determines the final standings of the programs.

RECOGNIZING QUALITY

Elevate recognizes two categories of quality contractors–Inner Circle of Quality and Partner in Quality. The rating system to achieve these designations is based on each company’s annual Quality Impact Rating (QIR).

The QIR Score is computed using the total cost and number of warrantable repair incidents occurring on Elevate roofs over the last three years; divided by the total square footage of Elevate roofs under warranty. The Cost portion of The QIR Score is weighed at 60%, the Incident portion of the QIR Score is weighed at 40%.

The QIR Score is calculated for all Elevate contractors, and Elevate will recognize those contractors who achieve the highest levels of roofing quality in the 2025 Master Contractor Program year.
