

Sustainable Roofing Starts Here

Give your roof a second life. Through our partnership with Geocycle, our Roof Take-Back Program makes it easy to recycle used roofing materials — reducing landfill waste and helping to support your sustainability goals.

ACCEPTED MATERIALS

Roof Membranes

(EPDM, TPO, Asphalt –adhered, mechanically attached, or ballasted*)

Insulation Boards

(Polyiso, EPS, and XPS -damaged or intact)

Installation Waste

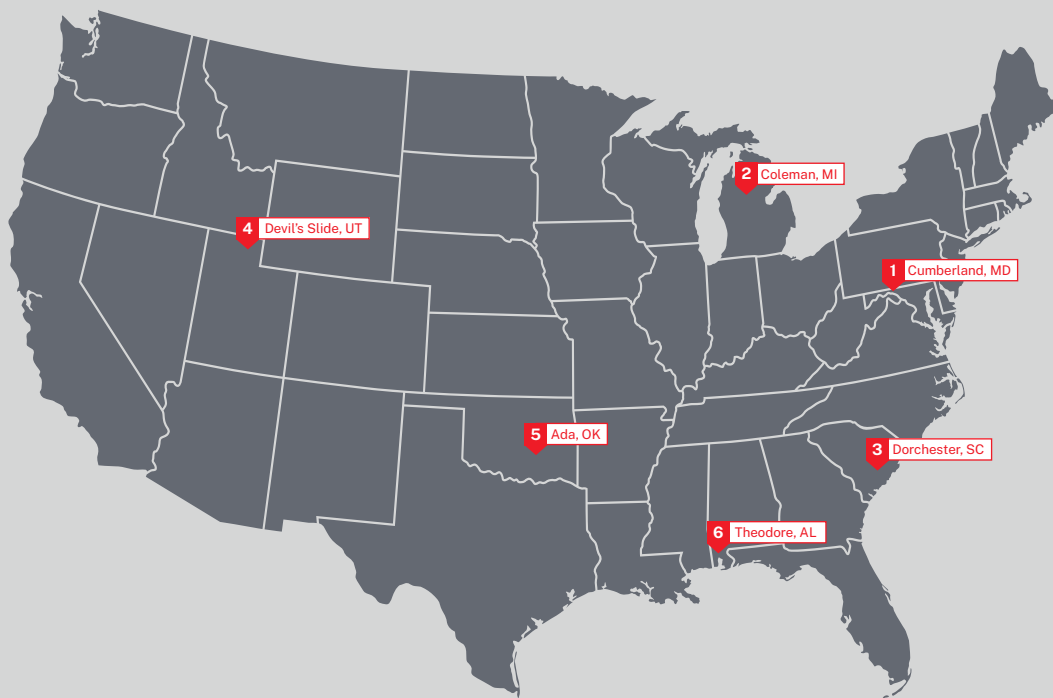

(flashing, stretch wrap, bags, cardboard, rags / rollers / scrubby pads)

No food, waste, PVC, or metals accepted at any locations

* Ballasted EPDM membranes are accepted, but the ballast itself cannot be included.

RECYCLING LOCATIONS

1 Cumberland MD	2 Coleman MI	3 Dorchester SC	4 Devil's Slide UT	5 Ada OK	6 Theodore AL

HOW THE PROGRAM WORKS

1] Email Us to Begin

Start your recycling request:
rooftake-back@amrize.com

2] All-in-One Service

We handle dumpster rental, transportation, and recycling **within 60 miles** of a recycling site.

3] Jobsite Preparation

You load and sort the material.
(No need to palletize or separate accepted recyclables)

4] You Get the Credit

We'll send you a Certificate of Recycling upon completion. Additionally, credits towards LEED certification may be an option.*

* Please work with your roof / project consultant on any questions regarding LEED.

ADDITIONAL INFORMATION

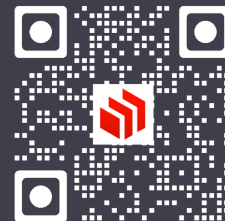

- **Cost-Effective:** In the participating regions, recycling costs are comparable or cost-neutral compared to traditional landfill disposal.
- No minimum quantity required
- Limited to accepted materials only
- **Projects outside 60 miles?**
Reach out — we'll assess feasibility
- If you need additional information on logistics, transportation costs, or any other questions regarding the recycling program, please reach out to rooftake-back@amrize.com.

WANT MORE RECYCLING OPTIONS?

Nationwide Foam Recycling

can also recycle insulation boards, mechanically attached and ballasted* EPDM, TPO and PVC membranes. Call 508-879-2760 and mention that you have an Elevate project with Amrize Building Envelope.

* Ballasted EPDM membranes are accepted, but the ballast itself cannot be included.
