

Technical Information Sheet

QuickScrubber™ Kit

| Item Description | Item Number |
|-----------------------------|-------------|
| 30 Scrub Pads and 4 Holders | W563582045 |

Description

The Elevate QuickScrubber Kit consists of a scrub pad and holder that allows application of primers. The QuickScrubber scrub pad is secured in place to the bottom of the holder. The pads for the QuickScrubber Kit are included with each kit.

The bottom-bearing surface of the QuickScrubber holder is slightly arched. When proper pressure is applied in a back-and-forth motion, the holder flattens and assures that proper contact is maintained.

Method of Application

1. Install a QuickScrubber pad on the bottom of the handle by pressing the pad onto the industrial-grade gripping surface with firm hand pressure.
2. Wet the pads with the primer. Primer must be applied on all surfaces to receive QuickSeam™ tapes.
3. Use back and forth strokes with heavy pressure along the length of the splicing area, until membrane surfaces become dark gray in color with no streaking or puddling.
4. Bear down on the QuickScrubber pad during application to ensure the total surface is in contact with the priming surface.

Storage

Keep pads clean and dry prior to use.

Coverage Rate

Each pad will prime approximately 100 — 200 linear feet (30 — 61 m) with a width of 6" — 7" (152.4 mm — 177.8 mm). Change pads routinely. Do not attempt to turn pads over and re-use. Discard after 100 — 200 feet (30 — 61 m) of priming.

| Typical Properties | |
|---------------------------------------|--|
| Properties – QuickScrubber Kit Handle | Value |
| Handle Base | High Quality Plastic |
| Color | Tan |
| Pad Holding Mechanism | Industrial Grade Gripping Surface |
| Properties – QuickScrubber Kit Pad | Value |
| Base | Nylon fibers with abrasive grain bound with solvent resistant resins |
| Dimensions | 3" (76.2 mm) x 6" (152.4 mm) x 0.25" (6.4 mm) |
| Color | Maroon |
| Grit | 220 - 240 |
| Weight | 35 oz. (993 gm)/ yd ² |
